

The objective of the course is to provide training for individuals who wish to operate a wheeled loading shovel at a competent level. This can be delivered either as an in-house training course or CPCS course.

Duration	Certificate	Number of Participants	Delivery	Assessment
Dependent upon candidate ability and experience	In-house or CPCS	1-4	Classroom and Practical	Theoretical and Practical Tests for CPCS

### Who is it for?

All Plant Operators who use wheeled loading shovel. This course is suitable for novices, intermediate level or experienced operators who need to refresh their skills or achieve the relevant CPCS Card.

### What does it cover?

All aspects of theoretical and practical skills in the operation of a wheeled loading shovel:

- Identify the basic construction, purpose and function of components and the purpose and use of controls and gauges.
- Identify and comply with manufacturers' instructions in accordance with the operator's handbook, other information sources and applicable legislation.
- Carry out pre-start checks.
- Set the loading shovel for site and road travel.
- Travel over differing types of terrain.
- Travel up and down substantial inclines.
- Manoeuvre in confined areas using forward and reverse direction.
- Explain precautions to be taken for underground and overhead services and other hazards.
- Carry out excavations from an embankment of different materials and form stockpiles and ramps.
- Load various types of materials into receptacles.
- Ensure load integrity and security.
- Backfill, spread and level differing types of material.
- Place the loading shovel in an out-of-service condition.
- Explain the loading and unloading procedures.

### On completion of this course:

All in-house candidates successfully completing the course in full will be awarded an MGL Group Training Services Certificate. All CPCS candidates after achieving their CPCS Theory and Practical Technical Tests shall receive their CPCS Red Trained Operator Card, valid for 2 years.
