

This Policy forms part of our Integrated Management System (IMS), certified to BS EN ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, National Highways Sector Scheme (NHSS) 16 Certification and CE Marking to EN13108.

Building Information Modelling (BIM) is a collaborative way of working, underpinned by digital technologies, which unlock more efficient methods of designing, constructing and maintaining buildings. This statement sets out MGL Group's approach to the requirements of BIM Level 2 and covers any applicable contract where BIM Level 2 applies.

### Responsibilities

The Board of Directors is responsible for determining Company Policies. Mark Davison and Dave Elliott, Chief Executives, have been appointed as having overall responsibility for this Policy.

This Policy covers all MGL Group (MGL) subsidiary companies and activities and is supported by the wider Integrated Management System (IMS).

### Commitment

MGL is committed to implementing BIM and fully supports collaborative working to achieve practical and efficiently designed, constructed and managed projects.

MGL will operate tailored BIM requirements to the relevant contract to consider the need to integrate or operate with any contract-specific systems already employed and to ensure we can meet the requirements of the relevant standards for the specific circumstances of the contract to the satisfaction of our client.

### BIM Objectives

- Undertaking an opportunities analysis at the outset of our involvement in every project to identify potential BIM implementation
- Ensure an Employers Information Requirements (EIR) document with clear definitions and decision points is agreed upon with the client
- Comply with the documents and standards defined for the contract and provide the right tools and technology for our people
- Develop suitable information models which reference, federate or exchange information with other models in use through the approved supply chain
- Provide or collaborate in a Common Data Environment
- Provide a tailored contract BIM Execution Plan (BEP), including assigned roles and responsibilities, standards, methods, & procedures and a master information delivery matrix aligned with the contract programme
- Engage early with and assess the BIM capability of any chosen supplier supporting MGL in the delivery of the contract, assisting them technically where required
- Develop and provide the correct information models using approved database-based software, and analysis software
- Develop appropriate contract-specific proformas for asset and project information requirements
- Provide training and practical manuals for the relevant systems in use on the contract.

### Communication of Policy

This Building Information Modelling (BIM) Policy is communicated to all employees and supply chain partners and made available to all interested parties.

### Policy Review

This Policy Statement will be reviewed annually to ensure it reflects current legislation and regulations and amended where necessary.

David Elliott – Chief Executive

Mark Davison – Chief Executive
